The Nervous System
The nervous system enables us to react to our environment.

1. Label each part of the nervous system shown above.

2. What is the function of the sensory nerves?

3. What is the function of the motor nerves?

4. Describe what messages are sent by the nervous system when you go outside wearing a sweater on a very hot day.

5. The part of the neuron that receives impulses is called the __________.

6. The part of the neuron that conducts the nerve impulse away from the cell body is called the __________.

7. The gap between the dendrites of one neuron and the axon endings of another neuron is called a __________.

A synapse is the point where two nerve processes meet.

3a. Systems of the Human Body
